

Welcome to the second series of COMSJOB at COMSNETS 2020!

COMSJOB is a focused event that seeks to bring together top companies in the field with the best and brightest students (BTech, MTech, PhD) and post-docs from COMSNETS community. COMSJOB aims to assist with both open full-time positions, and as well as fixed-duration internships.

We have 5 industry representatives (ranging from large scale enterprises to eminent startups) who would be speaking to the participants about their respective companies, the types of students they are looking for, and the best way to reach them for job prospects.

On behalf of the organizing and steering committee, Prasant Misra and Amit Saha invite you to be part of this event on the 7th of January 2020 at Hotel Chancery Pavilion in Bangalore, India.

Prasant Misra

TCS Research and Innovation,
Bangalore, India

Amit Kumar Saha

CISCO, India
