

# The Workshop on Networking Humanitarian Technology for Healthcare

## Message from the Chairs

Networking Humanitarian Technology for Healthcare (NetHealth) @ COMSNETS 2022 is a one day workshop that will be held on Jan 4, 2022. It offers all stakeholders in the healthcare system a platform to learn, share and connect. It will help bring together a multidisciplinary audience from across the healthcare spectrum to share their ideas and break the conventional silos that exist in this field of digital healthcare. This day-long workshop is for those working within the sphere of healthcare, be it clinicians, students, engineers, designers, innovators, policymakers or regulators, industry experts or anyone else working in support of healthcare. This year NetHealth covers topics such as Novel Medical Devices, Implants & Instruments, Artificial Intelligence, Bio-entrepreneurship, Tele-medicine, 3D printing, and Investment & Incubation opportunities as well as groundbreaking academic research. Nethealth 2022 theme is “NextGen Affordable Connected Healthcare and Challenges”.

We have brought a great program for NetHealth 2022. There are three eminent keynote speakers Prof N. Viswanadham INSA Honorary Scientist, Indian Institute of Science Bangalore, Prof Vimla L. Patel Prof (adjunct) Biomedical Informatics at Columbia University, New York India and Mr Rajat Garg, CEO of myUpChar one of the leading healthcare startups in India. We also have 5 invited talks by leaders from academia and industry and a panel discussion to brainstorm ideas for Next Generation Health Care Challenges - Impact on society & Individuals. The workshop received multiple submissions from across the world. The TPC members have selected 6 papers to be presented in the areas of cognitive healthcare with machine learning, mobile assisted healthcare, wearable devices to predict sleep and stress, and WiFi based human activity detection. The details of the schedule are available at [https://www.comsnets.org/netHealth\\_workshop.html](https://www.comsnets.org/netHealth_workshop.html).

On behalf of the organizing and steering committee, we welcome you to NetHealth 2022 on Jan 04, 2022 and look forward to your participation.
