

## Workshop on Networking Humanitarian Technology for Healthcare (NetHealth)

### Message from the chairs

The Workshop on Networking Humanitarian Technology for Healthcare (NetHealth) @ COMSNETS 2023 offers all stakeholders in the healthcare system a platform to learn, share and connect. This Workshop brings together a multi-disciplinary audience from across the healthcare spectrum to share their ideas and break the conventional silos that exist in this field. This year's NetHealth will cover healthcare-specific topics like Novel Medical Devices, Implants & Instruments, Artificial Intelligence, Bio-entrepreneurship, Tele-medicine, 3D printing, and Investment & Incubation opportunities as well as groundbreaking academic research.

This year's program ([https://www.comsnets.org/netHealth\\_workshop.html](https://www.comsnets.org/netHealth_workshop.html)) is highlighted by two keynotes, one invited talk and a panel discussion by the experts from academia and industry who are transforming both theory and practice in Health care domain, and 11 peer-reviewed papers are included as contributed talks (out of 59 submissions). Showcasing the state-of-art in the Healthcare domain, these talks cover a diverse list of topics such as Upcoming trends in HealthTech and their role in Healthcare, Flexible electronics based wearable devices, Role of Technology in Public Health, Sensors in Healthtracking etc.,

On behalf of the organizing and steering committee, we welcome you to NetHealth 2023 on Jan 04, 2023. We look forward to your participation in the workshop.
