

Message from COMSNETS 2023 Travel Grants Co-Chairs

Welcome to COMSNETS 2023! We take this opportunity to thank all the authors, students, volunteers and presenters for applying for travel grant. This year we have received more applications than previous year which was anticipated for two reasons; first, we are back to kind of complete physical event with very less online attendees, and the second is it is our 15th and milestone year of prestigious COMSNETS conference. We have approved a whopping number of 62 travel awards for international travel and pan India travel. This is the first time we have given travel grants to such huge number for COMSNETS conference. The domestic travel grant awardees are the students from various institutes covering prestigious universities including IITs and NITs. We are also providing the accommodation in the nearby hotel to all the travel grant awardees for all the 5 days of the conference.

The list of awardees and their affiliations can be found in the link below [Accepted Travel Grants | COMSNETS 2023](#).

This unique achievement was only possible because of generous sponsorship by **ACM Sigmobile, ACM Sigcomm, ACM India and TCS Research**. We would like to extend our sincere thanks and gratitude to sponsors, organising committee members, the COMSNETS association board members, speakers and ofcourse most importantly authors and delegates.

We look forward to meet all of you in the COMSNETS 2023.

Abhishek Appaji
B.M.S. College of Engineering, Bangalore, India
