Welcome to COMSNETS 2025 Poster Session. We take this opportunity to thank all the authors who submitted their work to the COMSNETS 2025 Poster Session.

The COMSNETS 2025 Poster Session consists of posters showcasing preliminary and ongoing work in a variety of topics, ranging from VLC (Visible Light Communication) to IoT (Internet of Things) to Intelligent Transportation Systems and Digital Health, etc. This year, we accepted a total of 48 papers for the poster session. We sincerely thank all the TPC members for their timely help in the reviewing process.

The poster papers will be presented in two sessions - Session 1 (on 7th January) and Session 2 (on 8th January). During Session 1, 24 posters will be presented physically by the respective authors. Session 2 also comprises 24 posters. Among the posters, the top three Best Poster Awards will be decided by a jury (which will be announced on 8th Jan during the Awards Ceremony).

We invite all the conference delegates to join the poster sessions and interact with the authors on their ongoing research work. We are confident that it will be a stimulating experience for all the participants of COMSNETS 2025. We look forward to seeing you all at the poster session.
